

# Financial support for home dialysis patients in the Northern Territory

This fact sheet provides information about financial concessions and subsidies available to patients in NT who manage their dialysis treatment at home. However, financial support differs between each State or Territory. This resource has been developed by the HOME Network, a group of healthcare professionals who are working together to facilitate a positive change towards increased use of home dialysis.

Home haemodialysis patients face increased utility costs that result from elevated water usage and electricity requirements necessary to run their dialysis equipment. As this is a recognised medical requirement, the NT Government provides a subsidy through electricity retailers to assist home dialysis patients with the running costs of their dialysis equipment. Many water suppliers in NT also offer a concession water usage costs for home dialysis patients. Some states and territories offer ongoing financial assistance and/or a single set-up payment for home dialysis patients. For more information about what is available in NT contact the Department of Health.

## Electricity Rebates - Concession Card Holders

The Northern Territory (NT) Concession Scheme provides general concessions on some utility costs for holders of various concession cards. For energy costs, you can get **up to \$1,200** per annum for electricity (8000kW)\*.

\*Only one member per household can access electricity concessions.

For more information on electricity concessions and claims, [click here](#).

## Water and Sewerage Concessions - Concession Card Holders

The Northern Territory (NT) Concession Scheme provides general concessions on some utility costs for holders of various concession cards.

The maximum water and sewerage concession you can claim is up to **\$800** and **\$486.12** per household, per financial year.

Only one member per household can access electricity concessions. Calculations will depend on your property type.

For more information on water & sewerage concessions and claims, [click here](#).

## Essential Medical Equipment Payment (EMEP)

The introduction of a carbon price in 2012 has impacted on the price of electricity. To offset the electricity price impacts on home dialysis equipment, the Federal Government provides an Essential Medical Equipment Payment of **\$183** annually to Commonwealth Concession Card holders.

Once claimed, the Essential Medical Equipment Payment will be paid annually until the person's circumstances change.

For more information about this payment, [click here](#).

## Pharmaceutical Benefits Scheme (PBS)

The PBS Schedule lists subsidised medications for Australian residents with a valid Medicare card and overseas visitors from [RHCA](#) countries. Families, couples, and individuals can receive a subsidised cost threshold known as the 'Safety Net.' From 2023, the threshold is **\$262.80** for concession card holders and **\$1,563.50** for other eligible clients. If you use one pharmacy, they will keep a record of your medications and can provide safety net threshold details. If you use multiple pharmacies or outpatient hospital pharmacies, ask for dispensed item records.

Other ways to save: talk to your chemist about generic brands, non-PBS items, your GP about combining medicines, or using outpatient pharmacies at public hospitals.

For more information about PBS, [click here](#).

## What is the HOME Network?

Through research, education and advocacy, The HOME Network aims to enable healthcare professionals with knowledge and resources to empower more people with chronic kidney disease (CKD) to embrace the freedom of home dialysis. This national initiative brings together a solution-focused group of home dialysis healthcare professionals from across Australia. The group draws upon all levels of evidence to provide insights and practical options for colleagues throughout Australia to facilitate a positive change towards increased use of home dialysis. For more information about the HOME Network and to explore resources available to healthcare professionals and patients, please go to our website, [www.homenetwork.net.au](http://www.homenetwork.net.au).
